Italy and Spain are nowadays two of the most interesting environments in the European business market.

Both countries share a strong historical and cultural connection. Their locations convert them into a spotlight for the European market. And both of them offer the commercial gateway to foreign markets such as South America, Africa, and Middle East.

Under such circumstances, Spain and Italy offer stable and legally secure business sectors.

Similarly, both countries are already experiencing and embracing the development of new projects within technology and the so-called new economy. Our teams have a deep knowledge of blockchain and bitcoin, digital commerce, IT law related to geoblocking, apps, influencer marketing and social network, as well as cybersecurity and data protection.

Both Italy and Spain have their legal particularities that require coordinated and specified legal advice, in order to provide the Client with a tailor made assistance towards its most ambitious business goals.
After years of synergic cooperation, Rödl & Partner has consolidated a direct connection between the Iberian Peninsula and Italy.

Thanks to the cross-border expertise of Rödl & Partner and to the multidisciplinary approach, we are able to support our Clients in every international business challenge.

The Italian Desk of Rödl & Partner aims at creating a bidirectional bridge to connect Italy and Spain: our professionals work together to support local and international companies developing their business in these countries as well as abroad, by leading them towards success.

Our Italian Desk team is composed by professionals with deep knowledge of legal and fiscal systems of both Countries. We provide our Clients with integrated advice on legal, tax and business issues.

In Italy and Spain our teams work together to provide the Clients with:
- Multidisciplinary assistance
  - On legal issues
  - On fiscal issues
- BPO services such as payroll and accounting
- Internationalization advisory services
- International Data Protection consultancy
